

YOUR BLUEPRINT, IN TWO FILES

Hi Ada Lovelace. The image board is the visual plan — hero, room views, and the approximate layout. This companion guide is the detail: full steps, the shopping list, safety, climate, and the weekly reset.

A garage that is easy to park in and easy to find things — same walls and windows, a calmer system.

WHAT THIS PLAN COVERS

- Hidden storage for tools
- Clear floor for both cars
- A landing zone by the door for sports bags

ZONES

Parking Zone

Keep the existing stall clear. No new walls.

Storage Zone

Bins and wall-mounted shelves on the existing wall.

Circulation Zone

Keep the walk path your photo already shows.

Workbench

Tools in labeled bins on the workbench you already own.

Door Drop

Hooks and a basket for daily in-and-out.

WHY IT HELPS

- Less visual noise
- Better daily routine
- Easier to park

Optional paint — consider if it helps

WALL COLOR SUGGESTION

Sea Salt

SW 6204

Optional — consider if it helps the goal.

STEP BY STEP

1. Declutter the floor
2. Mount two shelves on the existing wall
3. Park tools in labeled lidded bins on the workbench
4. Hang door-drop hooks and the sports basket

SAFETY

- Do not add walls, windows, or doors.
- Do not invent room dimensions.
- Paint is optional — skip it unless it helps the goal.

CLIMATE

Use the heating and cooling already in the room. This plan does not add portable heaters or new vents.

MAINTENANCE AND WEEKLY RESET

Return tools to labeled bins, hang bags on the door hooks, roll the mower to the side wall, wipe the workbench.
